

TUFTING IN 5 STEPS

.TUF
TING
SHOP

Feed your yarn through the yarn guide and then through the needle.

Make straight lines, bottom to top. If you are well practiced, try making curves.

Firmly press your gun against the stretched tufting cloth.

Remember, think safety, be careful with electric appliances and sharp items.

Press the trigger to start. Move the gun in the direction of the foot (like a sewing machine).
